

CERT IS CITIZEN PREPAREDNESS

CERT is the Community Emergency Response Team training program developed by the Federal Emergency Management Agency (FEMA). The CERT curriculum teaches community residents how to prepare themselves, their families and neighbors for an emergency, disaster or other community incident.

A PROGRAM FOR YOU AND OUR COMMUNITY

Hands-on NEMCo CERT Training on Fire Safety.

The Northshore Emergency Management Coalition (NEMCo) CERT Program provides community training and information on local hazards and basic preparedness for events that include earthquakes, wind storms, snow events, floods, landslides and more. Classes are presented by first responders and trained CERT Community members in the areas of **Fire Safety, Basic First Aid, Disaster Medical Operations, Light Search & Rescue, Utility Management** and overall preparedness.

CERT is for everyone. Topics are presented in an easy to understand step-by-step process, providing instruction and hands-on training to build your knowledge and skills. After a little practice, you and your classmates will participate in a disaster simulation where you'll apply what you've learned, building confidence in your abilities.

AN ONGOING NEED...

After you complete the CERT Program and receive your certificate the opportunities do not end. NEMCo CERT serves our community throughout the year.

You can keep your skills current with ongoing refresher and new skills training. You can apply what you've learned by helping our Community, Police, and Fire by providing:

- First Aid at Community Events
- Assisting in Lost Person/Child Search
- Supporting Community Warming/Cooling Center
- Contributing in Resource Distribution Activities
- And so much more...

Regardless of your age, background, experience or capabilities, there is something you can do to help yourself, your family and your community. Learn the basic skills you need with CERT.

CERT is active in our community.

SIGN UP NOW: THE NEXT CERT CLASS
